Limitations: SPAC is a Modular Certification only.

Understanding SPAC International's Total Cost of Ownership

In compliance with the Office of the National Coordinator for Health Information Technology (ONC), SPAC International provides the following Price Transparency disclosure:

SPAC International's SPAC Chronic Care Management Physician, Patient and Pharmacy Portals require certain hardware, third party software, services, and licenses to support the ONC Health IT Certified product, which may have costs in addition to the cost of the software, maintenance, and services contract.

- Hardware needs (e.g., work stations, servers, printers,fax) are client-specific one-time costs.

- Third-party software includes system infrastructure (e.g., operating systems, database applications, word processing, spreadsheets needed to store, retrieve, visualize, sort and print), which are typically onetime charges.

- Third-party services and software licenses include e-prescribing, drug and clinical knowledge systems (for drug education file, clinical decision support, patient and clinical information knowledge base services); ISP or HISP connectivitiy to support secure patient connectivitiy (secure messaging) and external reporting to public health; registries or labs; codes sets like ICD, RX Norm, SNOMED and CPT. All of these typically are on-going fees.

- There may be one-time service fees for interfaces with non-standard applications (e.g., laboratories, registries, local HISPS, HIEs, or non-QCPR secure messaging systems).

Purchase of SPAC International services require a contract and Annual subscription Fee. There also may be one-time fees for special local configurations, custom installation, support, or additional training.

Additional Third-Party Software Components (licensed by SPAC International and packaged and delivered with SPAC Portals with no additional license fees for SPAC clients)
- Dynamic HealthiIT
- Wolters & kluwer's Medispan application database
